Bronx, New York

Don't miss Saving Our Sons! This **free** community event is open to everyone who is concerned about the educational crisis facing young men of color and wants to make a difference! Learn strategies for helping our young men achieve academic, professional, and social success. This event is for EVERYONE - parents, grandparents, educators, mentors and concerned citizens because real change can only happen when an entire community is informed and engaged.

Savings Our Sons will include a presentation of Raising Him Alone - a panel discussion featuring prominent women who have successfully raised their sons alone. Their sons are now internationally known celebrities. Participants on this panel include Dr. Mahalia A. Hines (mother of rapper and actor **Common**), Dr. Brenda Greene (mother of rapper and activist **Talib Kweli**) and Sheron Smith (mother of Grammy nominated actor and rapper **Mos Def**).

Plus Workshops, Celebrity Guests, Prizes and More!
